

BLADE 1000 LTX EPS

Overview

The top of the range TGB, the top Blade 1000, now comes with a completely new attractive design and improved technology. The new generation of ATVs of 2019 boasts a confident design that attracts with a successful radiator grille and original Full-LED matrix headlights. The automatic transmission, for example, has also undergone major innovations and can withstand higher loads thanks to its reinforced construction and Japanese components. In everyday life, you will appreciate the practical removable front grille, which makes cleaning the radiator significantly easier. And of course, there's nothing that makes the TGB Blade 1000 such a popular ATV: a powerful, reliable two-cylinder V-Twin, an optional 2x4 / 4x4 drive with two lockable differentials, excellent handling, three-mode power steering, extended chassis with enough space for two and high stability on steep inclines. The equipment includes a winch, attractive 14 "aluminum discs, towing equipment, Full-LED lighting and high-quality EVO nitrogen dampers with progressively coiled springs.
